

Dear Lord Mayor and City of Sydney Councillors

I have just heard of the decision at council which marks the demise of the picket fence around the Reg Bartley Oval to some Bunnings composite as well as increased lighting. This is an appallingly bad decision – one that shows scant regard for the Heritage of this area. Your legacy is eroding and the benefits of having local representation are diminished by the relentless attitude to commercialise parks and create bland and characterless urban environments. City of Sydney can easily afford the upkeep of this picket fence – as is. Please reconsider.

Disappointed with the decision and lack for foresight this shows.
