Potts Point NSW 1335

## WOOLLOOMOOLOO GARBAGE COLLECTION POLICY

1. That the cleaning and maintenance responsibilities for those streets and laneways that are currently under the control of Housing NSW go back to the City of Sydney. These streets and laneways should then have the same cleaning, maintenance and landscaping regime as neighbouring streets and suburbs in the City of Sydney.
2. That the City of Sydney take responsibility for garbage disposal, removal of large items of waste, street maintenance, landscaping and street lighting.
3. That the responsibility for supervision of the parking bays be transferred to the City of Sydney who have the resources to address the problem. As a start residents should be consulted on any future changes to parking provision in Woolloomooloo.

*2011 Residents Association* calls on the City of Sydney and the NSW government to do all such things as are necessary to implement the above.

(Adopted 03 08 2015)
